

# Assessment task:

## Thinkboard – Multiplication

You can use a thinkboard to demonstrate your understandings about multiplication.  
Look at our example for  $3 \times 4 = 12$

<p>Commutative property</p> $4 \times 3 = 12$ $3 \times 4 = 12$	<p>Repeated addition</p> $4 + 4 + 4 = 12$
<p>Groups of</p> 	<p>An array</p> $\begin{array}{cccc} \text{X} & \text{X} & \text{X} & \text{X} \\ \text{X} & \text{X} & \text{X} & \text{X} \\ \text{X} & \text{X} & \text{X} & \text{X} \end{array}$
<div style="border: 1px solid black; padding: 5px; display: inline-block;"> <math>3 \times 4 = 12</math> </div>	

1. Fill in your own thinkboard for a different multiplication equation

<div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div>	

2. Write a number story about multiplication that matches your equation.
