

Location and directions

Early Years : Space

Introduce position and location in relation to other people and objects.

Jump **OVER** the cone

Walk **BETWEEN** the bins

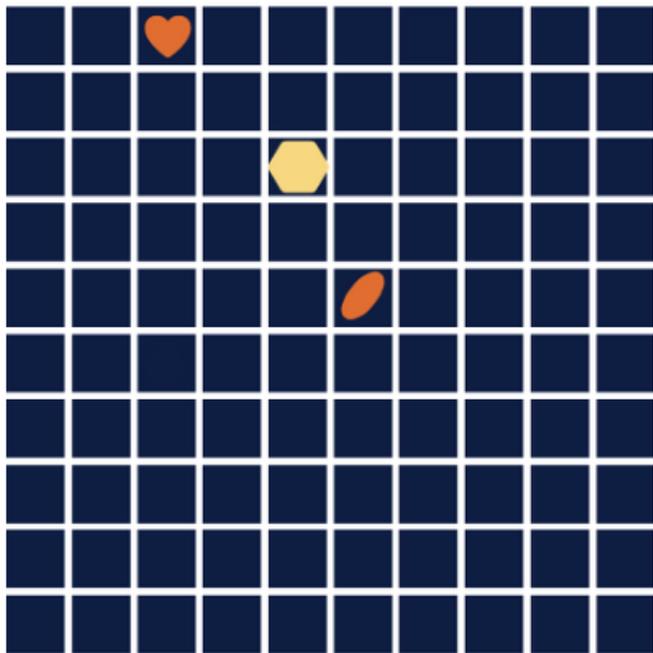

Walk **AROUND** the hoop

Try this fun Mathematics activity.

- Start at the heart.
- Move 2 steps down.
- Move 2 steps to the right.

Where did you get to?

Create a set of instructions for your partner to follow.

'How to draw' - Barrier games

Draw a large rectangle in the middle of your page.
Draw a triangle on top of the rectangle, so the flat base of the triangle meets the rectangle.

Draw a small rectangle in the middle of the bottom of the larger rectangle.

Draw a square on the right and left of the inside rectangle.

Draw a cross inside each square.

Find more details on this and other Space lesson ideas in the free Maths in Schools F - 2 online course.
