

## Activities using clock cards

Practise telling the time with these activities using the accompanying clock cards.

### Play Memory

Shuffle and place all cards face down on the table or floor. With a partner, take turns turning over two cards.

If the cards match (analogue time and digital time), keep that pair and have another turn - turn over two more cards. If they don't match, turn the cards back over and hand back play to the other person.

The person, who collects the most clock time pairs, wins.

### Play Snap

Divide the cards face down, evenly between you and a partner. Take turns turning over a card from your own pile.

When a card with an analogue time matches a digital time, the first person to say 'snap' gets to keep both cards.

### Order and Match

Place the analogue clock cards in time order.

Then match the digital times to the analogue times.
