

BACK TO SCHOOL

Try this fun Mathematics activity.
Create a base 10 dice similar to the net below.

Dice net

Extend by making another dice to include hundreds.

Find more details on this and other Number lesson ideas in the free Maths in Schools F - 2 online course.

Place value dice

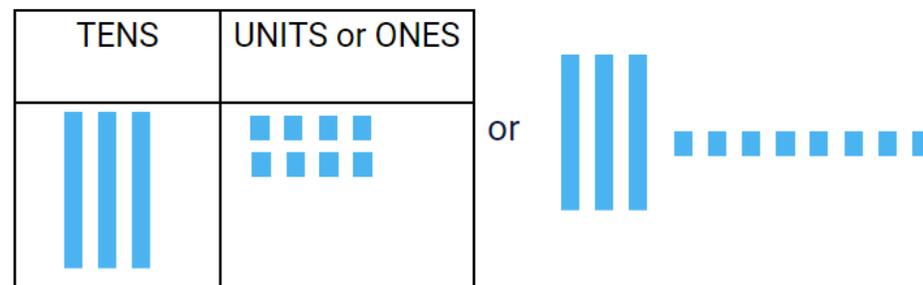

Early Years : Number

Students take turns to roll the dice and add the tens or ones rolled to create a final two-digit number.

If you rolled

You will have

Pose questions

- How do we read and write numbers?
- How do you know what the value of each digit is?
- Does it matter if a number is in a different position?
- Why do you think numbers have a particular position?
