

Assessment: True or false?

Decide whether the following equations are true or false.

$$674 - 389 = 664 - 379$$

$$843 + 121 = 853 + 111$$

$$37 + 54 = 38 + 53$$

$$436 - 223 = 446 - 213$$

Write the equation under the appropriate column.

True	False

Give a reason for your classification of each equation. Why did you choose true or false?
